

How 10ticks improved maths standards in Riverlea Secondary School

10ticks Online School Learning System was used in Riverlea School as part of lessons and at after school maths club. Over the course of a year there was a significant improvement in maths results for the students who used 10ticks, compared to those that didn't.

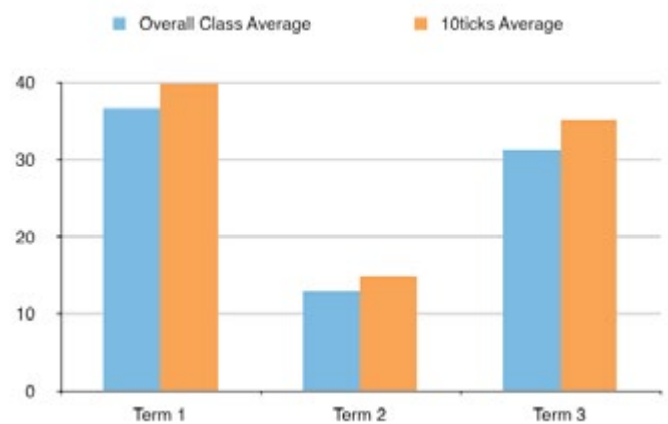

The Results

The graphs on the right show test results from each term for both Year 8 and 9. In the blue is the overall class results and in the orange is the results of the students who used 10ticks. As you can see students who used 10ticks outperformed students who didn't use 10ticks in every test.

For the Year 8 results, students who used 10ticks increased their test results by an average of 13%

For the Year 9 results there was a substantial difference between the two groups, the students who used 10ticks saw their test results increase by an average of 56%
